FLEET Company Cars™ is a market-leading business-to-business magazine for the fleet administration and fleet management. FLEET focuses on running fleets from using company's own resources, through partial outsourcing of selected tasks to external suppliers, up to full outsourcing. Questions of fleet financing, risk management and the whole after-sales area make an integral part of the content of the FLEET magazine. Apart from professional articles presenting progressive solutions for fleet management and searching for effectiveness, the variety of fleet suppliers, such as car manufacturers, service networks, financial institutions, IT providers, etc. are also given attention to present their fleet solutions.

The aim of FLEET is not only to reflect the typical issues of large fleets, but also the specific topics for selecting and operating company cars within a company of any size. FLEET also acts as a communication platform of the fleet branch in the country and creates link between fleet operators and their suppliers.

FLEET works together with a number of renowned specialists in the field both from the Czech Republic and from abroad. It partners several conferences and exhibitions in fleet and automotive sector. Thanks to the "Fleet Agent" programme, FLEET works together with a large panel of managers from the whole country involved in fleet management. The programme is a source of valuable information, arising from surveys, interviews, questionnaires, etc. and helps to optimize the editorial part of the magazine.

Comprehensive fleet communication is assisted by internet portal Fleet On-Line, bi-weekly newsletters and special events.

Target Groups

- ▶ Financial directors, purchase managers
- ▶ Fleet managers of fleet operators
- ▶ Suppliers of fleets in all areas
- ▶ Government administration, schools, institutions

Reader profiles

- ▶ Business groups
- ▶ Company position
